Refund for cancellations received after May 16th, 2010: No refund. Illinois RID reserves the right to cancel within 35 days of the program, with a full refund to participants, due to low enrollment.

Logical Reasoning for Court Interpreters

This seminar will provide a review of the roles taken by court interpreters including a discussion of logical reasoning by which interpreters can convince administrators, courts and lawyers to hire the appropriate complement of interpreters for a given assignment. The seminar will critically examine the case law, statutory, and ethical basis for various roles and decisions interpreters make.

Participants will be able to articulate in a logical fashion (major premise, minor premise to conclusion) the justification for providing various configurations of interpreters for a variety of scenarios. Comprehension and integration will be measured by in class presentations requiring the analysis and presentation of arguments supporting various configurations for various assignments.

The presenter will present a model of logical reasoning. Participants will be able to state the three models of logical reasoning. Participants will apply the model to scenarios and present those scenarios to the class. Comprehension will be measured by in-class presentations by participants of self-created ethical quandaries which incorporate and state the type of reasoning used to arrive at the various options.

Presenter Bio:

Carla M. Mathers, Esquire, CSC, SC: L practices law in the state and federal courts of Maryland and the District of Columbia. Ms. Mathers graduated magna cum laude from Howard University School of Law and summa cum laude from the University of Maryland. Ms. Mathers' interpreting degree is from the College of Southern Idaho. Ms. Mathers is a former President and Vice President of the Potomac Chapter Registry of Interpreters for the Deaf. Ms. Mathers sat on the Maryland Administrative Office of the Courts' Advisory Committee on Interpreters Sub-committee on Ethics and Sub-committee on Testing and Training. In addition to practicing law, Ms. Mathers teaches legal interpreting for the DOIT Center of the University of Northern Colorado, consults with interpreters, attorneys and courts regarding ASL court interpreting throughout the country, and is a member of the NCIEC Legal Interpreting Work Group. In 2006, Ms. Mathers published Sign Language Interpreters in Court: Understanding Best Practices, a text for interpreters, attorneys and courts to understand the principles underlying ASL court interpreting. Her other writings may be found at www.carlamathers.net.
