

Interpreter Performance Test Prep Workshop

At Harper College

0.4 CEUs PS

Have you ever asked yourself ...What are ways you can boost your confidence before the ISAS and NIC tests? How does attitude play into test-taking? What techniques can you use to enhance interpreting and transliterating skills? Do you have enough time between now and your test to rehearse? Will you be ready when it's time to take the test and strut your stuff!? These questions and more can be answered at an Interpreter Performance Test-Prep workshop. There will be several offered before Jan. 1st.

This workshop will allow participants the opportunity to practice their interpreting and transliterating skills with a variety of monologues. Participants will work with each other in small groups or pairs. Individuals should come ready to practice with each other and willing to give and take feedback as appropriate. The majority of the workshop will be devoted to performance skill-building. Time will also be spent sharing test-taking tips that can be incorporated before and during the ISAS performance test.

Participants will be provided opportunities to:

- Practice interpreting from English to ASL
- Practice interpreting from ASL to English
- Practice transliterating from spoken English to Conceptually Accurate Signed English
- Practice transliterating from Conceptually Accurate Signed English to spoken English
- Consider and incorporate other test-taking tips
